ADDENDUM 1

Bridge 10-3RS.3 Replacement

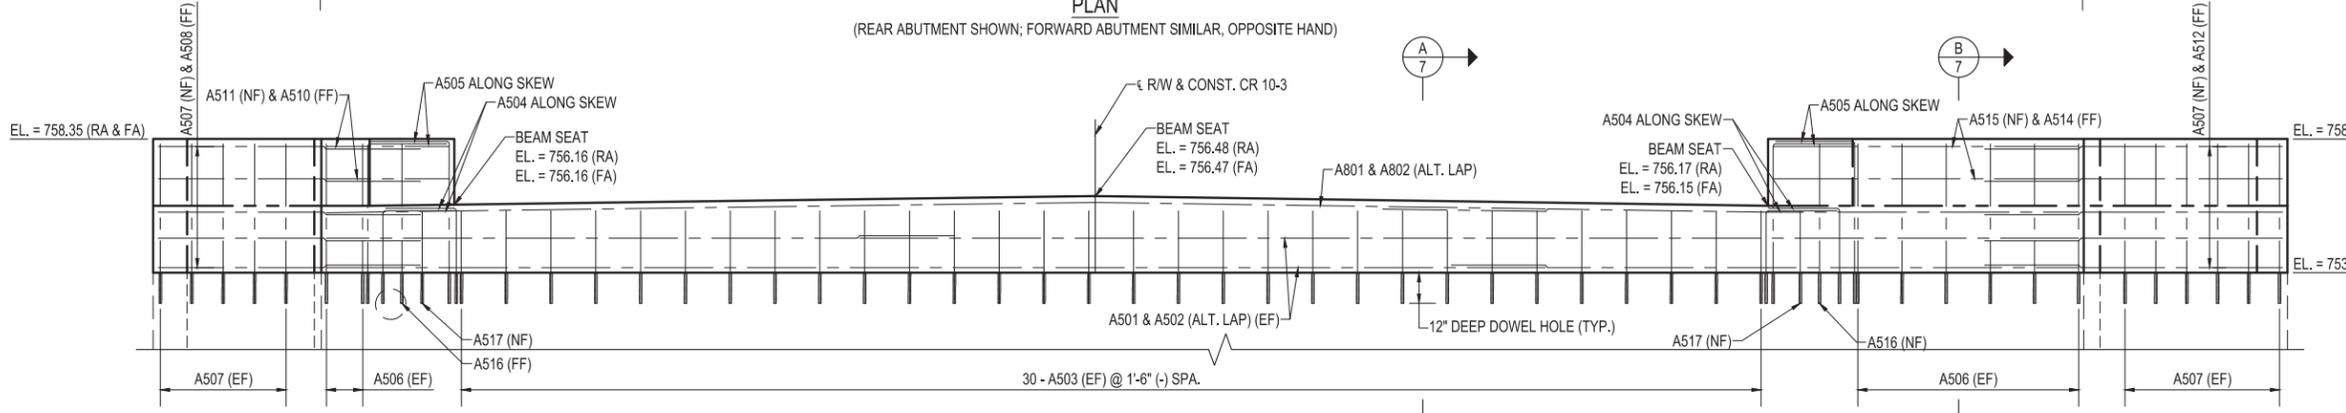

RE: Plan Sheet 7 Revision; Concrete Removal Clarification; Updated Wage Rate

1. Three abutment dimensions have been revised in the plan view of the abutment details. Please replace sheet 7 of the construction plans with the revised attached sheet.
2. The preferred method of removal of the abutment concrete is through the use of saw cutting, not jack-hammering. Care should be taken to prevent damage to the remaining concrete below the cut line elevation.
3. Please note the attached updated wage rates.

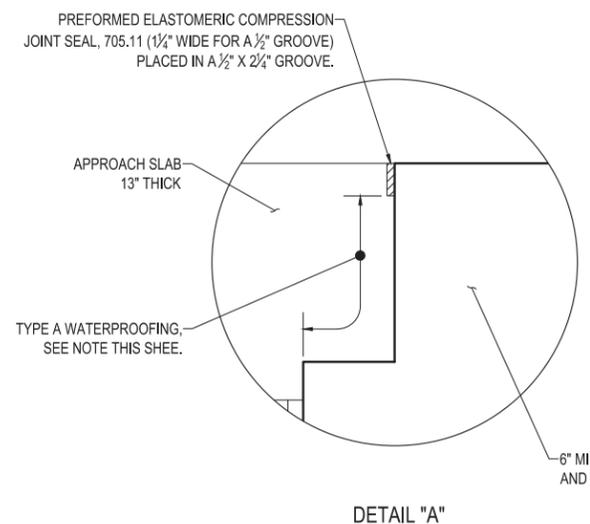

End of addendum.
